Q 1. What is the difference between a white box and a color box?

A. A white box is made of white paper, while a color box is made of colored paper. The color box is more expensive than the white box.

Q 2. What is the difference between a three layer and a five layer corrugated paper master carton?

A. A three layer corrugated paper master carton is made of three layers of corrugated paper, while a five layer corrugated paper master carton is made of five layers of corrugated paper. The five layer carton is stronger and more durable than the three layer carton.

Q 3. What is the difference between a paper sleeve and a paper sleeve?

A. A paper sleeve is a cylindrical container made of paper, while a paper sleeve is a cylindrical container made of paper. The paper sleeve is more expensive than the paper sleeve.

Q 4. What is the difference between a PVC box and a PVC box?

A. A PVC box is a rectangular container made of PVC, while a PVC box is a rectangular container made of PVC. The PVC box is more expensive than the PVC box.

Q 5. What is the difference between a DHL, UPS, and TNT shipping company?

A. DHL, UPS, and TNT are three of the most popular shipping companies in the world. DHL is known for its fast and reliable service, while UPS and TNT are known for their extensive global networks. Each company has its own strengths and weaknesses, and the choice of which to use depends on the specific needs of the customer.

Q 6. What is the difference between BV, FDA, LFGB, and CP65 certification?

A. BV, FDA, LFGB, and CP65 are four different types of certification. BV is a certification issued by the Bureau of Verification, FDA is a certification issued by the U.S. Food and Drug Administration, LFGB is a certification issued by the German Federal Food Safety and Inspection Service, and CP65 is a certification issued by the Chinese People's Republic of China.

Q 7. What is the difference between a wooden pallet and a wooden pallet?
